

Contents of Volume 33

No. 1

August 1995

S.A. Elmarakby, N.W. Shappell, S. Kumar and H.C. Sikka (USA)

Comparative metabolism of 2-acetylaminofluorene by rainbow trout and rat liver subcellular fractions 1

H. Arnold, H.-J. Pluta and T. Braunbeck (Germany)

Simultaneous exposure of fish to endosulfan and disulfoton in vivo: ultrastructural, stereological and biochemical reactions in hepatocytes of male rainbow trout (*Oncorhynchus mykiss*) 17

M.W. Beaumont, P.J. Butler and E.W. Taylor (UK)

Exposure of brown trout, *Salmo trutta*, to sub-lethal copper concentrations in soft acidic water and its effect upon sustained swimming performance 45

S.E. Belanger, E.M. Meiers and R.G. Bausch (USA)

Direct and indirect ecotoxicological effects of alkyl sulfate and alkyl ethoxysulfate on macro-invertebrates in stream mesocosms 65

Book Reviews 89

No. 2

September 1995

B. Kurelec (Croatia)

Reversion of the multixenobiotic resistance mechanism in gills of a marine mussel *Mytilus galloprovincialis* by a model inhibitor and environmental modulators of P170-glycoprotein 93

D.M. Lowe, C. Soverchia and M.N. Moore (UK, Italy)

Lysosomal membrane responses in the blood and digestive cells of mussels experimentally exposed to fluoranthene 105

K.C. Williamson, S.L. Shofer and R.S. Tjeerdema (USA)

Toxicokinetics and biotransformation of *p*-nitrophenol in the black turban snail (*Tegula funebris*) 113

Y. Bambang, P. Thuet, M. Charmantier-Daures, J.-P. Trilles and G. Charmantier (France)

Effect of copper on survival and osmoregulation of various developmental stages of the shrimp *Penaeus japonicus* Bate (Crustacea, Decapoda) 125

M. Celander and L. Förlin (Sweden)

Decreased responsiveness of the hepatic cytochrome P450 1A1 system in rainbow trout (*Oncorhynchus mykiss*) after prolonged exposure to PCB 141

R. Roy and P.G.C. Campbell (Canada)

Survival time modeling of exposure of juvenile Atlantic salmon (*Salmo salar*) to mixtures of aluminum and zinc in soft water at low pH 155

A. Liepelt, L. Karbe and J. Westendorf (Germany)

Induction of DNA strand breaks in rainbow trout *Oncorhynchus mykiss* under hypoxic and hyperoxic conditions

177

Nos. 3,4

October 1995

J.R. Bidwell, J.L. Farris and D.S. Cherry (Australia, USA)

Comparative response of the zebra mussel, *Dreissena polymorpha*, and the Asian clam, *Corbicula fluminea*, to DGH/QUAT, a nonoxidizing molluscicide

183

D.M.Y. Cheah, P.F.A. Wright, D.A. Holdway and J.T. Ahokas (Australia)

Octopus pallidus cytochrome P-450: characterisation and induction studies with β -naphthoflavone and Aroclor 1254

201

J.-C. Chen and S.-Y. Cheng (Taiwan, Republic of China)

Changes of oxyhemocyanin and protein levels in the hemolymph of *Penaeus japonicus* exposed to ambient nitrite

215

L. Bervoets, R. Blust and R. Verheyen (Belgium)

The uptake of cadmium by the midge larvae *Chironomus riparius* as a function of salinity

227

R.M. Stagg, A. McIntosh and P. Mackie (UK)

Elevation of hepatic monooxygenase activity in the dab (*Limanda limanda* L.) in relation to environmental contamination with petroleum hydrocarbons in the northern North Sea

245

G. De Boeck, G.E. Nilsson, U. Elofsson, A. Vlaeminck and R. Blust (Belgium, Sweden)

Brain monoamine levels and energy status in common carp (*Cyprinus carpio*) after exposure to sublethal levels of copper

265

T. Bálint, T. Szegletes, Z. Szegletes, K. Halasy and J. Nemcsók (Hungary)

Biochemical and subcellular changes in carp exposed to the organophosphorus methidathion and the pyrethroid deltamethrin

279

I.R. Schultz, W.L. Hayton and B.H. Kemmenoe (USA)

Disposition and toxicokinetics of diquat in channel catfish

297

D.L. Straus and J.E. Chambers (USA)

Inhibition of acetylcholinesterase and aliesterases of fingerling channel catfish by chlorpyrifos, parathion, and S,S,S-tributyl phosphorotrithioate (DEF)

311

A.P. van Wezel, D.A.M. de Vries, S. Kostense, D.T.H.M. Sijm and A. Opperhuizen (Netherlands)

Intraspecies variation in lethal body burdens of narcotic compounds

325

Keyword Index, volumes 26–30

343

Keyword Index, volumes 31–33 (1995)

349

Author Index, volumes 31–33 (1995)
